

A+PRO SELECTION SOFTWARE

AIR COOLER SOFTWARE

BACKGROUND

Colmac Coil's A+Pro software leads you through the selection steps to recommend A+Series™ air coolers that meet your most important criteria including price, size, and efficiency.

BENEFITS

- Web based - runs through your browser
- Generate concatenated project reports in a variety of file formats
 - Unit specification documents
 - Price summaries
 - Engineering schedules
 - Engineering specifications
- Access to estimated information like:
 - Charge inventory
 - Time between defrosts
 - Power usages for motors and electric defrost
 - Required water flow rates for water defrost
 - Air throw
 - Sound

FEATURES

Design coolers to fit your available space

Size both evaporators and liquid-air coolers

Easily add options and features

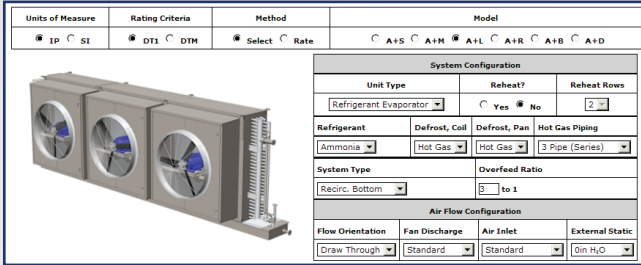

Ability to apply fouling factors

Explore how your unit will perform at various fan speeds (VFD control)

Work in IP or SI units

Create projects and organize by tag and room

A+PRO SELECTION SOFTWARE

Model#	Relative Price	Gross Capacity (TR)	Capacity Variation (%)	ΔT
A+L23T-24-112-83.0C-0300L-ARB-GG-SD	0.000	14.2	110.35
