Colmac Coil Featured in Process Cooling Magazine

Colville, WA: In the most recent issue of *Process Cooling*, John Gallaher of Hillphoenix highlighted Colmac Coil's involvement in a new cheese-processing facility for MDS Foods. One of the main goals of the processing room was to reduce labor and maintenance costs involved with keeping the coils clean. The design by Colmac included low velocity coils with wash-down duty motors to help meet this goal. Chris Vaught, vice president of technical services for MDS noted, "We're able to meet our quality and sanitation standards while saving time and money."

About Colmac Coil Manufacturing, Inc.

Since 1971 Colmac Coil has provided customers worldwide with innovative heat exchangers and heat transfer solutions for industrial refrigeration, HVAC, power generation, and gas compression applications. The company builds heating and cooling coils, refrigeration air coolers and blast freezers, air-cooled fluid coolers and condensers, and heat pipes for heat recovery. State-of-the-art selection software accurately calculates heat exchanger performance for a wide range of working fluids, materials, and operating conditions. World-class manufacturing facilities in both Washington State and in Illinois provide customers with fast delivery times and outstanding after sales support. www.colmaccoil.com
