Colmac Coil has pioneered the use of low charge direct expansion in low temperature industrial ammonia refrigeration applications. It has been proven in recent installations that using ADX® in industrial refrigeration systems produces additional benefits including: faster defrosting, effective operation at multiple temperature levels (convertible rooms), good response to changes in load, fast restart after power failure, and simplified maintenance and operation through elimination of recirculation pumps. For more information connect with us at colmaccoil.com.
Other Quality Products From Colmac Coil

| Heating and Cooling Coils | Heat Pipes for Heat Recovery | Dry Coolers for Glycol or Gas Cooling | Custom Evaporators & Baudelot Coolers | Air Cooled Condensers |

CE(PED) Certification, ASME Sec. VIII, Canadian Registration Number, UL508, Canadian Standards Association

| CE | U | CRN | UL | CSA |
