## PRESS RELEASE

June 28, 2016

---

### *R744.com Welcomes Colmac Coil as a Bronze Partner*

**Colville, WA:** Colmac Coil has established itself as a pioneer in CO<sub>2</sub> refrigeration technology by becoming a bronze partner with R744.com. Colmac joins over 60 other companies who have collaborated with R744.com in order to bring natural refrigerants to the market faster.

Any Colmac product that uses an evaporator can be built to utilize CO<sub>2</sub> as a refrigerant. This includes the **A+Series™ air coolers, blast freezers, and hydrocoolers**. Colmac Coil is committed to constant improvement in the development of new designs, manufacturing methods, and heat transfer technologies in order to ensure the success of its customers.

### **About Colmac Coil Manufacturing, Inc.**

Since 1971 Colmac Coil has provided customers worldwide with innovative heat exchangers and heat transfer solutions for industrial refrigeration, HVAC, power generation, and gas compression applications. The company builds heating and cooling coils, refrigeration air coolers and blast freezers, air-cooled fluid coolers and condensers, and heat pipes for heat recovery. State-of-the-art selection software accurately calculates heat exchanger performance for a wide range of working fluids, materials, and operating conditions. World-class manufacturing facilities in both Washington State and in Illinois provide customers with fast delivery times and outstanding after sales support.
