## PRESS RELEASE

July 21, 2016

---

### *Joliet Cold Storage Announces Expansion*

**Joliet, IL:** Joliet Cold Storage, a public refrigerated warehouse and customer of Colmac Coil, has announced plans for a Phase 2 expansion of their facility. The expansion project is slated to be completed in August, just two years after the initial opening of the warehouse in 2014. Along with additional freezing space, this expansion will also offer customers the newest technology in blast freezing, giving quicker turn around times for quick-freeze needs.

As with the original warehouse build, Colmac Coil was grateful for the opportunity to provide industrial air coolers for the refrigeration needs of the project. This Phase 2 expansion required 21 A+Series™ industrial air coolers equipped with Colmac's low charge ammonia **ADX™ technology**.

Read the full announcement from Joliet Cold Storage on page 2.

### **About Colmac Coil Manufacturing, Inc.**

Since 1971 Colmac Coil has provided customers worldwide with innovative heat exchangers and heat transfer solutions for industrial refrigeration, HVAC, power generation, and gas compression applications. The company builds heating and cooling coils, refrigeration air coolers and blast freezers, air-cooled fluid coolers and condensers, and heat pipes for heat recovery. State-of-the-art selection software accurately calculates heat exchanger performance for a wide range of working fluids, materials, and operating conditions. World-class manufacturing facilities in both Washington State and in Illinois provide customers with fast delivery times and outstanding after sales support. *takes great pride in announcing our 2016*

## E X P A N S I O N

Shortly after the ribbon cutting ceremony at our 8.4 million cubic foot facility in August of 2014, the needs of our existing customers in addition to the growth of new businesses has presented us with a tremendous opportunity to expand.

The Phase 2 expansion scheduled to open in August, will offer the newest and most cutting edge technology in blast freezing. This allows our valued customers much quicker turn around times for their quick-freeze needs. Along with

the much needed ultra-modern answer to an age-old process, the Phase 2 expansion will offer additional frozen space. Our Phase 3 expansion, due for completion in December, will also provide additional frozen space, plus convertible space, thaw rooms, additional dock doors, and truck parking. With 65-foot wide dock areas, Joliet Cold Storage offers the best there is in organized efficiencies. These expansions will keep the supply chain moving at the speed and velocity required to satisfy the logistical needs of the industry well into the future.

- OVER 7.3 MILLION TOTAL CUBIC FEET OF ADDITIONAL SPACE
- OVER 200,000 SQUARE FEET OF ADDITIONAL SPACE
